

2018 WACOPS LEGISLATORS OF THE YEAR | AWARD WINNERS

YOUR SUPPORT OF WACOPS IS VALUED!

LD 22, Representative

Doglio, your sponsorship of the 2018 HB 2633 - Addressing the presumption of occupational disease for firefighters and law enforcement officers meant a great deal to our members. We appreciate

that you are continuing the effort in 2019. Your votes in support of both SB 6214 – PTSD and SB 6188 – Brady Protections were essential for our members. You've been a consistent supporter of important law enforcement legislation and we want you to know we appreciate you.

LD 35, Representative

Griffey, your support of important legislation affecting our members including SB 6188 – Brady Protections and SB 6214 – PTSD Presumption was essential to the passage of those bills in

2018. We heard your strong floor speech regarding the importance of the PTSD presumption bill and as a first responder, your message resonated with your peers in the House. Your commitment to the labor issues of first responders is valued. Your regular attendance at the weekly public labor luncheon meant a great deal to us and allowed us a way to keep you and others up to speed on the status of important law enforcement bills. Thank you for your service as a firefighter and legislator, and for your support of our members.

LD 25, Senator

Zeiger, your support of WACOPS is valued. Your 2017 sponsorship of SB5477 – presumption of occupational diseases for firefighters and law enforcement

officers was important to our members. Additionally, your 2018 vote in support of SB 6188 – Brady Protections was appreciated too and helped to end, years of effort to achieve this outcome. Your vote in support of SB 6214 – PTSD will allow those in need to seek the help they deserve. You've taken consistent, and sometimes hard, votes on behalf of Washington's law enforcement officers. We want you to know we appreciate you.

LD 45, Senator Dhingra

Your sponsorship of SB 6188 -- Brady protections for police officers, allowed a long-fought effort to finally come to the proper and fair conclusion. The support you lent on our First Responders' Post Traumatic Stress Disorder legislation (SB

6214) and the extensive work you contributed to the creation and passage of the consensus bill related to I-940 and re-defining Washington's Use of Force statute (HB 3003) made awarding you with this recognition an easy and obvious choice for us.
