Featuring training (Sept 13 & 14) focused on

“The Bullet-Proof Mind” by

Lt. Col. Dave Grossman, U.S. Army (Ret.)

Lt. Col. Dave Grossman is an internationally recognized scholar, author, soldier and speaker and is considered one of the world's foremost experts in the field of human aggression and the roots of violence and violent crime.

Grossman’s training provides the ultimate psychological preparation for combat. Bringing together current trends in violence, from terrorists to aggravated assaults, Col. Grossman coalesces his research into a presentation affirming the life that all law enforcement and military professionals have chosen to lead.

Within that context, Grossman presents a model for action that ensures professionals can train for and overcome the unique mental stressors of possible violence. Find out what to expect when your heart rate rises and blood drains from your face, and how to avoid it.

Attendees of the meeting will additionally have the opportunity to evaluate ongoing and emerging issues that may be selected to be part of WACOPS Legislative Priorities in the following session of the Washington State Legislature.
